

# This is the *Singita* Jet Service.

From 1 June 2018, guests visiting Singita's private concession in the Sabi Sand wildlife reserve in South Africa will have the opportunity to make use of a brand new exclusive jet service, operated in partnership with Federal Airlines. The experience begins on the tarmac at O.R. Tambo International Airport in Johannesburg, where guests are personally met airside as they disembark their commercial flight. A VIP passport control counter ensures that guests are fast-tracked through this process and transported to the Federal Airlines terminal in a luxury transfer vehicle.

Pre-check-in on arrival ensures that the only priority is to enjoy the executive catering. Boarding the jet for the direct, 35-minute flight to Singita Sabi Sand takes place directly from the lounge, so there are no queues, hassles or crowds. Apart from providing a more comfortable and luxurious option for guests, the introduction of this service also reduces flying time considerably. Guests will be able to sip sparkling wine at 35,000 feet and touch down in half an hour, flying directly to Singita's airstrip without any stops en route.
